SCIENTIFIC PAPERS
OF THE
BUREAU OF STANDARDS

VOLUME 21
Nos. 524-546

Dir. II

INDEX TO VOLUME 21

A		Page		Page
Absorption, transmission and, of sound by some building materials.....	37		Critical constants of various gases, a review of the literature relating to the.....	141
Amplifier, harmonic, used in radio-frequency standardization.....	179		Current distribution.....	191
Analysis, dental gold alloys.....	209		Currents, eddy, effect of, in a core consisting of circular wires.....	701
Anderson bridge.....	191			
Animals, spectral energy distribution of the light emitted by plants and.....	521		D	
Antenna, coll.....	409		<i>Davis, Raymond</i> , Experimental study of the relation between intermittent and nonintermittent sector-wheel photographic exposures.....	95
directional receiving.....	409		Densities of gases, a review of the literature relating to the normal.....	141
Audio beat, measurement of frequency by use of sonometer.....	179		Dental gold alloys, analysis.....	209
			composition.....	209
B			Direction finder, a unicontrol high-frequency radio.....	25
<i>Bearce, H. W.</i> , A fundamental basis for measurements of length.....	895		radio, 90-7,700 kc (3,300-39 m).....	409
<i>Blanchard, Marion Smith, and S. F. Pickering</i> , A review of the literature relating to the normal densities of gases.....	141		Distribution of current.....	191
Brooks potentiometer.....	191		<i>Dorcas, M. J., C. W. Hughes, W. W. Coblenz and</i> , Radiometric measurements on the carbon arc and other light sources used in phototherapy.....	535
Building materials, transmission and absorption of sound by some.....	37		<i>Dorsey, Ernest</i> , Measurement of surface tension.....	563
			<i>Dunmore, F. W.</i> , A unicontrol high-frequency radio direction finder.....	25
C			—, A portable radio direction finder for 90 to 7,700 kilocycles.....	409
Carbon arc and other light sources use in phototherapy, radiometric measurements on the.....	535			
Cadmium light waves as a basis for length measurements.....	895		E	
<i>Christer, V. L., E. A. Eckhardt and</i> , Transmission and absorption of sound by some building materials.....	37		<i>Eckhardt, E. A., and V. L. Christer</i> , Transmission and absorption of sound by some building materials.....	37
<i>Coblenz, W. W., M. J. Dorcas, and C. W. Hughes</i> , Radiometric measurements on the carbon arc and other light sources used in phototherapy.....	535		Eddy currents in a core of circular wires, effect of.....	701
— and <i>C. W. Hughes</i> , Spectral energy distribution of the light emitted by plants and animals.....	521		Electric field of a charged wire and a slotted cylindrical conductor.....	631
Coil antenna.....	409		Establishment of radio standards of frequency by the use of a harmonic amplifier.....	179
Compass, radio.....	409		Expansion, thermal, of fused silica, measurements on the.....	1
Concentrated loads, effect of, on the length of measuring tapes.....	385			
Constants of various gases, review of literature relating to.....	563		F	
Conductor, electric field of a charged wire and a slotted cylindrical.....	631		Formula for the inductance of a helix made with wire of any section.....	431
Copper, determination in dental gold alloys.....	209		Frequency meter, method of standardization by harmonic amplifier.....	179

Page		Page
	Fundamental basis for length measurements -----	395
	Fundamental standard of length -----	395
	Fused silica, measurements on the thermal expansion of -----	1
	G	
	Galvanometer shunt -----	191
	Gases, a review of the literature relating to the normal densities of various -----	141
	review of literature relating to the critical constants of various	563
	Gold, dental alloys analysis -----	209
	dental alloys composition	209
	H	
	Harmonic amplifier, use in radio-frequency standardization -----	179
	<i>Hazen, Grace, C. B. Jolliffe and, Establishment of radio standards of frequency by the use of a harmonic amplifier</i> -----	179
	Helix made with wire of any section, formula for the inductance of a -----	431
	<i>Hidnert, Peter, Wilmer Souder and, Measurements on the thermal expansion of fused silica</i> -----	1
	High-frequency radio direction finder, a unicontrol -----	25
	<i>Hudson, C. S., Relations between rotary power and structure in the sugar group. Part I--(1 to 10)</i> -----	241
	Hughes balance -----	191
	<i>Hughes, C. W., W. W. Coblentz and, Spectral energy distribution of light emitted by plants and animals</i> -----	521
	---, <i>M. J. Dorcas, W. W. Coblentz and, Radiometric measurements on the carbon arc and other light sources used in phototherapy</i> -----	535
	I	
	Induction in sheet steel, determination of the magnetic -----	727
	Inductance of a helix made with wire of any section, formula for the -----	431
	Iridium, determination in dental gold alloys -----	209
	Iron, determination in dental gold alloys -----	209
	J	
	<i>Jolliffe, C. B., and Grace Hazen, Establishment of radio standards of frequency by the use of a harmonic amplifier</i> -----	179
	<i>Judson, Lewis V., Effect of concentrated loads on the length of measuring tapes</i> -----	385
	K	
	Kirchoff's laws -----	191
	L	
	Laboratory weights, short tests for sets of -----	65
	Length measurements, fundamental basis for -----	395
	Light emitted by plants and animals, spectral energy distribution of the -----	521
	Light waves as a basis for length measurements -----	395
	Linkage-current diagram for representing magneto operation -----	647
	Literature relating to the critical constants of various gases, review of -----	563
	M	
	Magnesium, determination in dental gold alloys -----	209
	Magnetic induction in sheet steel, determination of the -----	727
	Magnetic reluctivity relationship -----	743
	Magneto operation, linkage-current diagram for representing -----	647
	Manganese, determination in dental gold alloys -----	209
	Measurement of length, basis for -----	395
	Measurement of surface tension -----	563
	Measurements on the thermal expansion of fused silica -----	1
	Measurements, radiometric, on the carbon arc and other light sources used in phototherapy -----	535
	Measuring tapes, effect of concentrated loads on the length of -----	385
	N	
	Nickel, determination in dental gold alloys -----	209
	O	
	Ohm's law -----	191
	P	
	Palladium, determination in dental gold alloys -----	209
	Plants and animals, special energy distribution of the light emitted by -----	521
	Platinum, determination in dental gold alloys -----	209
	Photographic exposures, experimental study of the relation between intermittent and nonintermittent sector-wheel -----	95
	Phototherapy, radiometric measurements on the carbon arc and other light sources used in -----	535
